GRC Reporting Platform

Power BI Solution Architect · Data Modeler · BI Developer · UX/UI Designer · Project Coordinator

4

GRC domains unified into **one** governed platform

Designed and implemented an entire GRC reporting:
Built a unified, automated Power BI platform as the single source of truth covering Risk Management, Assessments Governance, Awareness, and Policy dashboards used by 300+ stakeholders.

- ✓ Built full technical architecture: data modelling, backend, performance optimization
- ✓ Led workshops and ensured stakeholder adoption through demos and ongoing support
- ✓ Unified role-based security groups and combined all reports into a single Power BI App

Demo BI Platform

Power BI Developer · Project Coordinator · Data Engineer

*Where "show, don't tell"
became the whole pitch.*

Led an internal demo platform development: a suite of exemplary PowerBI reports covering 4 distinct topics. It became the go-to asset for proving reporting quality in customer conversations and sales pitches.

- ✓ Coordinated a team of 3 consultants to ensure consistent design and delivery
- ✓ Rebuilt dashboards for financial, portfolio, roadmap, and cyber use cases
- ✓ Established a SharePoint data foundation and defined the UX and design standards

PROJECT MANAGEMENT

Cybersecurity PMO - Global Biotech

PMO Lead · Project Coordinator · ServiceNOW (SNOW) Workflow & Reporting Owner

7 Managed
Cybersecurity
Projects

Served as the central PMO for a cybersecurity program at a global Biotech, running weekly governance and keeping ServiceNow, reporting, and leadership visibility on track.

- ✓ Coordinated team communication, tracking dependencies, deadlines, and responsibilities
- ✓ Became the go-to person for SNOW, managing project setup and workflow consistency
- ✓ Created clear executive presentations summarizing progress, risks, and resource needs
